

Bootstrap Assignment

In this assignment we have to design a responsive webpage using bootstrap as shown in the image.

Note that we have to ensure the following:

- 1)The entire page should be responsive
- 2)The menu should be responsive. It should collapse and expand as the page changes its resolution
- 3)We have to use bootstrap grids to achieve it
- 4)We need a navbar-brand displaying the company name(ie Test Company)

Required output

HInt1

First create the menu using navbar.

Use the classes as shown below.

Note that to get the desired color we need to use the navbar-inverse.

```
<nav id = "navbar" class = "navbar navbar-default navbar-fixed-top  
navbar-inverse" >
```

HInt2

For getting the responsive menu items we need to use a collapsible navigation bar with a button to toggle as shown below

```
<button type="button" class="navbar-toggle" data-toggle="collapse" data-target="#navbarCollapse">  
  <span class="sr-only">Toggle navigation</span>  
  <span class="icon-bar"></span>  
  <span class="icon-bar"></span>  
  <span class="icon-bar"></span>  
</button>
```

Hint3

To get the navbar-brand we need to use class as navbar-brand as shown below.

- ◆ `Test
COmpany`

- ◆

Hint4

Use the bootstrap grid system to make the grids and get responsive behaviour
